Speed up the process for customers who want quick service with OrderCounter's Self-Serve Kiosks. Empower your customers to place their own orders, reducing labor costs, eliminating lines, and boosting your brand's image, all while increasing employee tips and enhancing customer satisfaction.

» **Reduce Labor Cost** - Kiosks cut down on cashier demand and increase order-taking capacity. This allows available cashiers to focus on delivering exceptional customer experiences, and the increased tips can help offset both front and back-of-house wage costs.

» **Reduce or Eliminate Lines** - Allow customers to 'skip the line' and get their food faster

» **Customizable Experience** - OrderCounter Kiosk is customizable to include high-quality graphics and food images. Customers can order and modify every item that is made available for Kiosk Ordering. Set up Upselling and increase the average order total.

» **Accept Payment, Tips, & Signature** - Accept payments via American Express, Visa, MasterCard, Discover, Apple Pay, and Google Pay. Customers can also provide tips, both fixed and percentage-based, and sign on-screen for a smooth and efficient transaction process.
