

ONLINE ORDERING THAT WORKS DIRECTLY WITH YOUR RESTAURANT'S POINT OF SALE

Online orders flow right into your OrderCounter restaurant POS system, so no more tablets all over the counter, loose faxes, or emails to transcribe. Direct traffic directly to your own site and give your customers an additional outlet to order their next takeout or delivery.

» Bypass the 15-35% fees with OrderCounter Online Ordering

OrderCounter can provide an online ordering portal that will allow restaurants to bypass the expensive 15-35% fees being charged by other online ordering companies.

» **Receive delivery and takeout orders directly into your POS and kitchen printer**
OrderCounter offers many integrations to third party online ordering vendors which allow orders directly into the POS and to your kitchen printer from Uber Eats, Grub Hub and many other popular online ordering systems.

» **Streamlined Template Design and Website-Only Option** – Seamlessly integrate Online Ordering into your existing site using your own brand colors. Don't have a website? Our streamlined template designs will get your business up and running in no time so you can start fulfilling orders.

» Get reports you need in your email

» Additional Sales Outlet

» Consistent Experience

» Emailed Automated Full System

» Restaurant Loyalty Account – Reward returning customers

» Save time and avoid errors by easily selecting historic orders for reorder.

» **Update Your Menu Only Once** – Need to make a change? Edit your restaurant menu once and see it updated across all of your menus

» **Capture Insights** – Market directly to your customers, regardless of whether they ever step foot in your restaurant
